

# HUYNH QUANG HUY

REACT NATIVE DEVELOPER

## ABOUT ME

My name is Huy. In my university, i used to develop Android application, my diploma project is an Android application. Then i have spent three years as an iOS developer at Fujinet and IVC company. At the present, i worked as a React Native developer at RongViet securities company more than one year.

Because i used to develop both Android and iOS platform so i worked very well in React Native. I know how to work with XCode and Android Studio. In some cases, i can code native programming languages like Java, Swift, Objective C to create native module for React Native application as well.

My desire is to participate in a good environment, helping me develop my programming skills and have good relationships.
